

Cheyenne Theater Meeting Minutes

April 5, 2021

Attending: Board Members Margyre Anholtz, Pat Cress, Larry Barnes and Robert Grace; and Manager Jessica Lee. Meeting is held at 6:00 PM, in the *Cheyenne Theater* lobby.

Brent Rueb could not attend because of a covid-related issue, and Lila sent the accounting information prior to the meeting.

We do have a quorum attending.

The minutes were approved by acclamation.

The **treasurer's report which Lila provided was also approved with a motion, second, and unanimous vote.**

Robert then moves, and Margyre seconds **a motion to formally approve Pat Cress and Larry Barnes as new board members.** We thank Justin Lohr for his fine service in the past.

Jessica and Robert report that the sound system has had some problems. We think that the pre-amp is failing, and note that we had to return money to five patrons on Sunday when the sound failed.

The gain on the amplifier was set to 100%, and JR set it to 75%, although we aren't sure this is the problem. Also, two of the speaker horns are damaged. JR is actively working on the sound-system issue, which we appreciate. He will call the new maintenance person, Mark. (Mark replaced Dennis.)

There is discussion that we might need to upgrade portions of the sound system when we renovate the building, and we think that consulting Mark would probably make sense in this determination.

Robert also thinks that we should replace the (low voltage?) wiring that feeds the seat and aisle lighting, as it has been problematic and appears worn in places.

It was agreed that we need to do a complete inventory of the various systems prior to approving the engineer's proposal for the renovation.

Robert reports that the new *Godzilla* movie did quite well nationally, with the largest box office gross since the covid debacle began. This is seen as a hopeful "light at the end of the tunnel" for the movie business.

We approve a **motion to adjourn at 6:30 PM.**
