Minutes by Lila Whitmore**

Lila Whitmore, City Clerk, shared details regarding the theater finances. The theater revenues are down considerably over last year. Overall expenses are more than the revenue generated which has caused the theater fund to become low. It is believed that the decline in revenue has been mostly due to poor quality movies and low attendance. The theater board does not want to raise admission prices because they feel the prices should be affordable as the theater is a service to the community. At the November 27, 2017 City Council meeting the Council voted to dissolve the theater fund in 2018 and make the theater a department in the general fund. The responsibilities of the Theater Board as defined in Ordinance 607 will not change.
